Hi Marsha. I hope all is well. I wanted to let you know that I thoroughly enjoyed listening in on the discussion points and topics during the call. Unfortunately, I had to leave during the roll call due to a work related issue but returned at 2:50 PM to monitor the remaining discussion. It was very exciting to hear of the various initiatives and projects underway running across the participating agencies impacting communities throughout the nation. Thanks for inviting me to the calls.

I am doing well and growing in my responsibilities here at HUD and look forward to continue my small part in serving as a resource to targeted communities here in Jacksonville and the State. On a personal note, last evening my wife and I attended a concert starring Gladys Knight that was simply awesome. I thought of you and Cynthia and know you both would have enjoyed it as well had you been in attendance.

Hi Cynthia!!

My best to you both in 2017!!

Ken
